**Prof. Dr. Yakout Dogheim**

Head of Otolaryngology Department

Course Director

**Prof. Dr. Hossam M.T. Foda**

Head of Facial Plastic Surgery Division

# Welcome

## Dear Friends and Colleagues,

It is with the greatest pleasure that I, on behalf of the Otolaryngology Department of Alexandria Medical School, welcome you to our 8th International Septorhinoplasty Course.

This course is designed to offer in-depth coverage into the art of rhinoplasty. All aspects of this complex procedure will be discussed, from the fundamentals to the latest advancements in the field.

The faculty has been selected from both the disciplines of Otolaryngology and Plastic surgery and includes premiere rhinoplasty surgeons of acknowledged, substantial experience and capabilities to ensure a truly advanced and sophisticated educational experience.

A full day of live surgery by the distinguished faculty will allow them to demonstrate their different strategies and techniques.

The strictly limited enrollment is meant to encourage and maximize the interactive exchange between the participants and our expert faculty members.

I hope you all will benefit the most of this intense learning opportunity and that you will enjoy your stay in our beloved City of Alexandria one of the historic pillars of knowledge and culture.

*Hossam Foda, M.D*
