This is a one and half day scientific meeting which delivers the up-to-date and practical knowledge about Asian facial plastic surgery including rhinoplasty, blepharoplasty, and other facial plastic and reconstructive topics. This time, we have renowned speakers not only from Asian countries but also from all over the world so you can meet experts and friends from all over the world and freely communicate each other in a friendly setting.

The meeting place Seoul is a wonderful city where historical heritage of old dynasty and a cutting edge modern culture intermingles. You can relax, enjoy good food and sightseeing, and recharge yourself in this continuously developing metropolitan city.
